

The Cutting Edge: Advanced Skin Procedures

Friday 24 July 2026

The highly popular Cutting Edge: Advanced Skin Procedures is a unique hands-on cadaveric skills training workshop featuring expert faculty in General Practice and Plastic Surgery.

It is aimed at GPs with a higher than average level of skill in surgery who have access to appropriate levels of equipment and operating facilities. It is of particular relevance for rural GP proceduralists. It does not provide certification of competence in any of the procedures outlined and practised. Limited positions are available for Observers, and for Theatre Nurses in the role of assistant.

Workshop Content

This highly practical cadaveric workshop features only 2 participants per station.

- Excision of skin lesions with focus on safe margins for malignancy
- Planning excisions on face and neck, ears, eyelids, lips, inner canthus and nose - including wedge excisions, nostril margins and options for closure

CTEC acknowledges the support of:

Surgical excision and closure:

- Rotation advancement flap
- V-Y advancement flap
- Transposition flap
- Wedge excision of the lip

Surgical repair and closure:

- Eyelid lacerations
- Ear lacerations

Skin graft:

- Split skin graft
- Full thickness skin graft

Management of lesions on the:

- Tip of the nose, nostril margin and ear

The workshop also features presentations on lesion assessment, surgical planning and post operative management of skin flaps and grafts.

The Australian Government is offering training grants of \$2000 per day to rural and remote procedural and emergency medicine GPs to maintain their respective skills.
