

# Core Skills: Plastic Surgery Flaps

Sunday 3 May 2026

This cadaveric, ASPS endorsed CTEC workshop offers a rare opportunity for world class training in the latest advances in plastic reconstructive surgery.

A post-Congress workshop for the Perth-based 1 to 3 May 2026 RACS Annual Scientific Congress, it will feature the expertise of renowned International Expert Guest Faculty Professor Joon Pio Hong (South Korea).

Globally recognised leaders in plastic and reconstructive surgery, Professor Hong will showcase international advances in complex flap reconstructions.

Professor Hong is the President of the World Society of Reconstructive Microsurgery and Professor of Plastic and Reconstructive Surgery at the University of Ulsan College of Medicine and Asan Medical Centre.

The workshop aims to increase participant anatomical knowledge and the acquisition of technical skills in complex surgical approaches, nerve identification and the raising and use of flaps in plastic surgery for the head and neck and orthopaedic trauma defects.

## Workshop Content

Each station will offer a dedicated cadaveric model for two participants, who will benefit from practising procedures in CTEC's highly supportive and authentic clinical environment.
